Memorandum Of Understanding (MOU)

Between

Shanti Devi Arya Mahila College, Dinanagar

&

Dr. Bharat Bhushan Hospital, Near Police Station, Dinanagar

This is an agreement between SDAM College, Dinanagar (Distt. Gurdaspur), Punjab and Dr. Bharat Bhushan Hospital, Dinanagar, hereafter called "Industry Partner"

I. Purpose:

The purpose of this MOU is to provide the students of BSc Medical/Biotechnology : hands-on -Training, Discipline and attentiveness , Ability to conduct research, Ability to perform designated tasks with speed, efficiency and accuracy, Good analytical judgment, Patience to interpret technical data, Basic computer skills, and helping them in getting employment in the industries , to open their labs, to go for teaching or reaserch. **Dr. Bharat Bhushan Hospital, Near Police Station, Dinanagar** is intended to help provide service-learning and other opportunities to SDAM College, Dinanagar students through partnership. To support this goal, SDAM College, Dinanagar and Industry partner should ensure that program activities are conducted in compliance with all applicable UGC laws, rules and regulations. In particular, this MOU is intended to establish clear guidelines regarding this service work that will be conducted at SDAM College, Dinanagar (Distt. Gurdaspur), Punjab and if required, will be at the site of the Industry Partner.

Dated ..12-05-2020

II. Background

This Industry Partner will provide service-learning and the other opportunities for this course, coordination between SDAM College, Dinanagar (Distt. Gurdaspur), Punjab and **Dr. Bharat Bhushan Hospital, Near Police Station, Dinanagar**

III SDAM College, Dinanagar responsibility under this MOU:

SDAM College, Dinanagar shall undertake the following responsibility:

- To enroll the students.
- To verify hours completed by each SDAM College, Dinanagar participant.
- To provide all the infrastructure facility to the students
- To prepare detailed curriculum of the course in consultation with all the Industry partners, Boards of Studies and Industry associations.
- To appoint the faculty/guest faculty and related staff.
- To function all other activities as per UGC rules and guidelines for the course.
- To give the credits and to evaluate the students.
- To award the certificates to the students.

e-mail : drbharatbhushan21@gmail.com
**BACKSIDE POLICE STATION,
DINANAGAR-143531
Distt. Gurdaspur, Pb.**

Dated 12-06-2020

III. Dr. Bharat Bhushan Hospital, Near Police Station, Dinanagar, responsible under this MOU:

Industry partner shall undertake the following activities:

- Provide any necessary training required.
- Provide technical knowledge for the software/equipment required to complete each part of the course and related project.
- Be in attendance for any events coordinated through this partnership.
- Provide guidance and supervision to students.
- To assist for an evaluation for each SDAM College, Dinanagar participant.
- To help the participants for the placements.

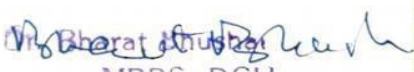

IV. Funding

This MOU does not include the exchange of funds between the two parties. As per UGC rules the remuneration will be paid to the faculty/staff of the Industry Partner of the teaching/practical/project work.

V. Record retention

All records must be retained with SDAM College, Dinanagar from the date of MOU.

Subject- Regarding permission to visit Bharat Bhushan Hospital, Dinanagar.

Respected Sir,

I am writing to ask your permission for one day visit to your prestigious institute (Bharat Bhushan Hospital) on 08/04/21 as per the demand of B.Sc. med final year curriculum. This visit aims at studying various diagnostic imaging techniques including ECG, X-rays, and ultra sound. This will inculcate theoretical knowledge with real-world applications, enhancing students understanding of experimental techniques. We assure you that all the necessary precautions will be taken to ensure the safety and well-being of the students during the activity. So, we kindly request your approval for the same.

Thank you for your time and consideration

Yours Sincerely

Report of a visit to Bharat Bhushan hospital

Institute	Shanti Devi Arya Mahila college, Dinanagar
Department	Zoology
Activity	Hospital visit
Date	08/04/2021
Time	9:00 AM
Class	BSc med 3 rd year
Participants	15
Faculty members	01

As part of the curriculum, Zoology Department of Shanti Devi Arya Mahila College, Dinanagar organized a one-day visit for the students of BSc med 3rd year to Dr. Bharat Bhushan hospital, Dinanagar on 08/04/2021. This visit aimed at studying various diagnostic imaging techniques including ECG, X-rays, and ultrasound. The objective was to understand the principles, applications, and significance of each modality in modern medical diagnostics. During the visit, students were guided to different chambers by Mr. Balwinder and Dr. Bharat Bhushan introduced the students with various techniques.

Key learnings-

- At first, they were taken to ECG chamber to show ECG device and its working. An ECG measures the electrical activity of the heart over time. Interpretation of ECG readings was done by experienced cardiologists, illustrating the importance of skilled professionals in accurate diagnosis.
- After that they were guided to X-ray chamber where electromagnetic radiations are used to produce images of internal structures, particularly bones. They witnessed X-ray technicians positioning patients and capturing images and noted the importance of proper shielding and dose control to minimize radiation exposure, underscoring the priority of patient safety.

- Lastly, they were taken to Ultrasound chamber where ultrasound imaging utilizes sound waves to generate real-time images of organs and tissues. Students Observed obstetricians performing prenatal ultrasounds, providing expectant parents with visualizations of the foetus and monitoring foetal development.
- Discussed the versatility of ultrasound in diagnosing conditions like gallstones, liver diseases, and vascular abnormalities.

XRAY CHAMBER

ECG MACHINE

Outcome:

- The hospital visit provided valuable insights into the diverse diagnostic imaging modalities of ECG, X-rays, and ultrasound.
- Each modality offers unique advantages and applications, contributing to the comprehensive assessment and management of various medical conditions.
- The experience underscored the critical role of skilled healthcare professionals in performing and interpreting diagnostic tests, ensuring accurate diagnosis and optimal patient care.

Department	Zoology Department
Activity	Hands on Training
Date	15/09/2021-16/09/2021
Time	09:00 PM
Venue	Hospital lab
Participants	20
Faculty members	03

A two-day workshop on blood collection was organized by Zoology Department of Shanti Devi Arya Mahila College, Dinanagar in collaboration with Bharat Bhushan Hospital, Dinanagar on **15/09/21-16/09/21** at Hospital Lab. The workshop aimed to provide students with practical experience and knowledge regarding the process of blood collection, emphasizing safety protocols, techniques, and the significance of blood donation.

MR. Balwinder, a healthcare professional with expertise in phlebotomy conducted the workshop. 20 Students of BSc med 3rd year participated in the workshop.

Participants were provided with lab coats, gloves, and safety goggles to ensure adherence to hygiene and safety standards.

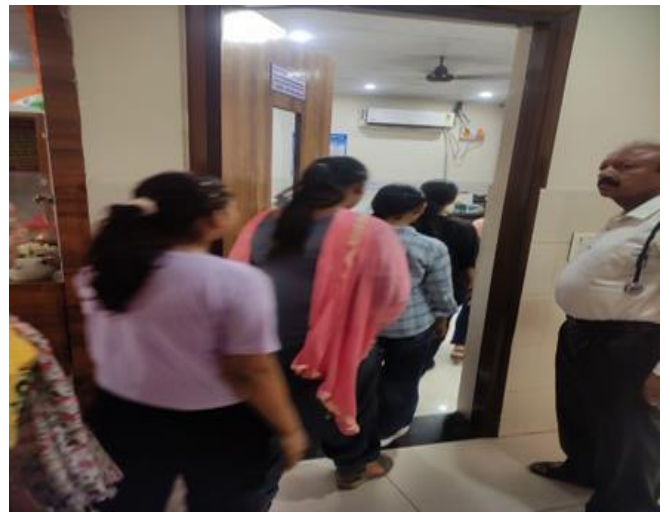

Workshop Activities:

Participants were divided into smaller groups, each led by a trained facilitator.

1. Facilitators demonstrated proper techniques for venipuncture and capillary puncture using anatomical models and simulation arms. They emphasized key steps such as selecting appropriate veins, applying tourniquets, cleaning the site, and inserting needles at the correct angle.

2. Hands-on Practice: Participants were given the opportunity to practice on simulation arms and fellow participants, focusing on mastering the techniques while ensuring patient comfort and safety.

BLOOD COLLECTION UNIT

Outcome -

The workshop concluded with a brief lecture by Mrs. Sunita Verma, urged each participant to carry forward the knowledge and skills acquired here into your professional endeavors.

Report of blood donation camp

Institute	Shanti Devi Arya Mahila college, Dinanagar
Department	Zoology Department
Activity	Blood Donation Camp
Date	20/04/2022
Time	10:00 AM
Venue	Indoor Stadium
Participants	40

The blood donation camp was organized by Bharat Bhushan Hospital, Dinanagar in collaboration with Zoology department of Shanti Devi Arya Mahila College, Dinanagar on **20/04/2022** at the college campus.

The primary objective of the event was to encourage voluntary blood donation and raise awareness about the importance of donating blood regularly. For that purpose, the college Indoor stadium was transformed into a temporary blood donation center with designated areas for registration, medical examination, and blood collection. The venue was equipped with necessary medical supplies, including sterile needles, blood bags, and testing kits.

Volunteers and medical staff were stationed at various points to assist donors and manage the crowd efficiently.

Students and faculty members were encouraged to participate in the noble cause. The response was overwhelming, with many enthusiastic volunteers registering for blood donation. Post-donation, donors were provided with refreshments and advised to rest for a short duration.

Blood donation camp

Outcome:

The blood donation camp was a resounding success, thanks to the collective efforts of organizers, volunteers, and donors. By promoting the culture of voluntary blood donation, the event made a valuable contribution towards addressing the constant demand for blood and ensuring timely access to safe blood transfusions for patients in need.

Faculty members	05

On **18/10/2022**, a seminar on tuberculosis (TB) awareness for undergraduate (UG) students was organized by Zoology Department of Shanti Devi Arya Mahila College, Dinanagar in collaboration with Bharat Bhushan Hospital, Dinanagar at Seminar Hall. The primary objective of the seminar was to educate UG students about tuberculosis, a global health concern. Dr. Shardha, Dr. Gourav was invited for the purpose. He discussed Epidemiology, Pathogenesis and Transmission, Clinical Manifestations and Diagnosis, Treatment Strategies, Prevention and Control with the help of presentation.

Seminar on tuberculosis (TB)

Outcome :

In conclusion, the seminar underscored the importance of tuberculosis awareness and advocacy in combating this formidable disease. With continued education, collaboration, and commitment, we can work towards a future free from the burden of tuberculosis.

Seminar on Different Sterilization Techniques

CIRCULAR

Date –21/04/2023

Subject – Hands on Training- Sterilization Techniques.

Dear students,

The Department of Zoology in collaboration with Bharat Bhushan hospital, Dinanagar is going to organize a Workshop on Sterilization Techniques on 26/04/2023 at Hospital lab for the students of B.Sc. Med 3rd year. Compulsory activity for practical assessment.

Reena Talwar
Principal
Shanti Devi Arya Mahila College
Dinanagar (GSP.)

Report of a session conducted on different Sterilization Techniques

Institute	Shanti Devi Arya Mahila college, Dinanagar
Department	Zoology Department
Activity	Seminar on Sterilization Techniques
Date	26/04/2023
Time	10:00 AM
Participants	20
Faculty members	01

A session on Sterilization Techniques was organized by Zoology Department of Shanti Devi Arya Mahila College, Dinanagar in collaboration with Bharat Bhushan Hospital, Dinanagar on **26/04/23**. This session aimed to familiarize participants with different sterilization techniques to eliminate or deactivate all forms of microbial life during laboratory work. Dr. Shardha was the key note speaker. 20 students from BSc medical 3rd year attended the workshop along with Mrs. Sunita Verma (HOD Zoology Department).

Objective:

The primary objective of the activity was to provide participants with practical experience in implementing sterilization techniques and understanding their importance in ensuring safety and quality in different environments.

Materials and Methods:

1. Autoclave: Participants were introduced to autoclaving, a widely used method that employs high pressure and steam to sterilize equipment and materials. They learned how to properly load the autoclave, set the parameters, and monitor the sterilization process.
2. Chemical Sterilization: Different chemical agents such as ethylene oxide and hydrogen peroxide were demonstrated for sterilizing medical instruments and

laboratory equipment. Safety precautions and proper handling of chemicals were emphasized.

3. Dry Heat Sterilization: Participants were introduced to dry heat sterilization techniques, which involve the use of hot air ovens. They learned about the temperature and duration required to achieve sterilization without moisture.

IMAGES –

Outcome:

This Seminar on sterilization techniques was successful in providing participants with practical experience and knowledge essential for maintaining sterility in different environments. Continued training and awareness on sterilization practices are crucial for ensuring safety and quality in healthcare, food production, and laboratory research.
